Overview

In the early morning of August 4, 2019, a shooter attacked individuals in the Oregon District of Dayton, Ohio. The Dayton Oregon District Tragedy Fund (the “Fund”) was created at The Dayton Foundation the morning of the incident at the requests of the City of Dayton and Montgomery County, Ohio. Numerous businesses and individuals donated to the Fund to provide a charitable vehicle to assist victims of this tragic event. All donations to the Fund will be used to assist the victims of the August 4th tragedy, in particular the families who had someone taken and those individuals physically injured who meet the requirements of this Final Protocol.

On August 16, 2019, the Dayton Oregon District Tragedy Fund, LLC (the “LLC”) was formed for the sole purpose of distributing charitable gifts from the Fund to eligible recipients. The LLC’s Oversight Committee is responsible for developing and administering this Final Protocol that will allow the donated funds to go to the families who had someone taken or those individuals physically injured in the most equitable, transparent and timely manner possible. The Oversight Committee has been advised on a volunteer basis by Mr. Ken Feinberg and Ms. Camille Biros. Mr. Feinberg and Ms. Biros have consulted on 30 similar funds and the distribution protocols for those funds. All Oversight Committee work and services are being performed pro bono. In doing its work, the Oversight Committee understands that addressing the pain and hardship is of utmost importance, thus all of the interactions and communications with victims will be compassionate and transparent.

Donations to the Fund must be received by The Dayton Foundation by 6:00 p.m. October 31, 2019, to be available for the first distribution to certified eligible applicants. On November 1, 2019, The Dayton Foundation will transfer the balance of the Fund to the LLC for distribution pursuant to this Final Protocol. It is anticipated that donations may be received by The Dayton Foundation after that date, and that there may be another distribution by the LLC to the certified eligible applicants in accordance with this Final Protocol. Donations made to the Fund after the LLC completes its final distribution according to the Final Protocol will be distributed by The Dayton Foundation’s Governing Board to mental health service providers.

This Final Protocol has been approved by the LLC’s Oversight Committee and incorporates feedback received from the community at large. The distributions made by the LLC are to be allocated in accordance with this Final Protocol.

The proposed distribution categories are outlined below.

NOTE: Determination of the amounts for each of the following categories depends upon the following: 1) The balance of the Dayton Oregon District Tragedy Fund on October 31, 2019; 2) the receipt of updated data regarding the nature and the number of injuries; 3) completion of the review of all submitted applications and certification of those that meet the eligibility requirements of the Final Protocol; and 4) review and approval by the Fund Administrator.

Eligible applicants may be victims, family members or personal representatives of deceased victims as explained in more detail below.

A. Individual Applications – Deceased Victims

Those certified eligible applicants submitting claims relating to victims killed as a result of the shooting in the Oregon District tragedy on August 4, 2019, will receive the highest amount of distribution under the scope of this Final Protocol. All eligible applicants in this category will receive the same payment regardless of circumstances. Each distribution determination will be made upon certification of the application and is subject to the Note above.

B. Individual Physical Injury Applications of Victims Requiring Hospitalizations for 48 Hours or Greater

Applicants who were hospitalized due to physical injuries resulting from the Oregon District tragedy and stayed in the hospital for 48 hours or more will be eligible for distributions in amounts that depend upon the length of the applicant’s hospital stay. Payments to eligible applicants in this category will be grouped based on length of hospital stay regardless of their specific injury or circumstances. Initial hospital admission must have occurred by August 6, 2019; subsequent hospital admissions through the final application date, October 31, 2019, will be aggregated in determining the total length of hospital stay and resulting eligibility category. Each distribution determination will be made upon certification of the application and is subject to the Note above.

C. Individual Physical Injury Applications of Victims Treated at a Hospital or by a Private Physician or Licensed Clinician and Released Within 48 Hours of the August 4, 2019 Oregon District Tragedy

Applicants who were physically injured, treated and released within 48 hours of the Oregon District tragedy at a hospital or by a private physician or licensed clinician, will be eligible for distributions in amounts that depend upon the nature of the applicant’s injury. Eligible applicants in this category will be divided into two groups. The first group will consist of those victims who suffered gunshot wounds; the second group will consist of those victims who suffered injuries other than gunshot wounds. Each distribution determination will be made upon certification of the application and is subject to the Note above.

There will only be enough financial gifts to distribute to the families of the deceased and those physically injured in accordance with this Final Protocol. The use of existing mental health services/networks will be encouraged and promoted to assist all those who were affected by the tragedy.
